01 PROFILE

I am a Software Developer aspiring to work in the field of software development. I am a Moringa School Software Engineering grad on the Flatiron curriculum looking to put my experience in cutting-edge technologies to accelerate my

career growth in the software development field I am competent in delivering expertise in software system design, testing, and maintenance. I am dedicated to incorporating SOLID development principles and employing cutting-edge software

architecture to ensure the efficiency and scalability of the solutions I develop. I can effectively self-manage while working on independent projects and collaborate as part of a productive team. I am a capable and consistent problem solver, skilled at prioritizing and managing projects with proficiency. I am progressive-minded and in tune with new developments in my field
